## Experience:

**Assistant Professor, Science & Technology Services Librarian**, University of Oregon, September 2002 – present.

Serves as Subject Specialist for Mathematics, Computer Science, Environmental Studies and Human Physiology. Solicits opportunities and gives instruction to classes in my subject areas as well as developing collections in both the Science and Mathematics Libraries. Responsible for providing instruction and research assistance at the Science Library's reference desk in any area of science approximately 12-14 per week. Acts as the on site supervisor for students working at the Science Information Technology Center. Champions the services of the ITC with faculty across the departments served by the University of Oregon Libraries. Encourages faculty and students to use the software, reports problems and sees to their resolution in the ITCs.

## Courses Taught:

**Co-instructor, Library 323: Modern Information Environment**, Winter quarter 2005.

With Karen Munro, developed and ran a four credit course for University of Oregon undergraduates on how to do library research about environmental topics. Emphasized use of critical thinking skills, reading comprehension and use of varied library resources (law, business, government documents, maps, and more). Teaching the course involved lesson planning, reading selection, grading, lecturing, nurturing students and coordinating guest lecturers. Class met weekly for four hours.

**Information literacy classes, Architecture, Computer Science, English, Environmental Studies, Human Physiology**, 2001 – present.

Taught upwards of 40 classes a year, for a total of 246 sessions reaching 3481 since starting.
