We want to hear from you!
Please share your ideas at this meeting. If you need more time you may submit them by e-mail to Cathy Soutar at Campus Planning and Real Estate no later than Friday, June 19, 2009.

Why are we here?
To present the preliminary East Campus Area Open-space Framework Plan and East Campus Residence Hall project’s initial siting and massing studies for feedback and comments at this early stage of project development.

What is it?
The East Campus Residence Hall project is a major residence hall housing 400-500 students from diverse backgrounds and accommodating a variety of different student living spaces, shared and common areas, dining facilities, and academic program spaces.

• The facility will be designed to accommodate the needs of freshman and upper level students. Initial plans have identified dining facilities and academic program space, affordability, and built-in flexibility for future program changes as project components.

Where is it?
The approved site for this facility is the area directly to the east of the Museum of Natural and Cultural History at the corner of East 15th Avenue and Moss Street, in the East Campus Area, zoned PL (Public Land) and designated in the East Campus Area Development Plan as “Institutional.”

What are the next steps?
To move forward while considering all comments provided.
You will be invited to review and comment again at the end of the ECRH Schematic Design phase and when the East Campus Area Open-space Framework Plan is complete (scheduled for completion in Fall term 2009).
