

MEETING NOTES

Meeting Date : February 23, 2009 Project : UO Lewis Integrative Science Building
Author : Chuck Cassell Job No. : THA Project 0810
Re : Advanced Imaging Center User Group Programming Meeting

Present:

User Group Members

Scott Frey, Lewis Center for Neuroimaging
John Donovan , CAMCOR

UO Representatives

Fred Tepfer
Emily Eng

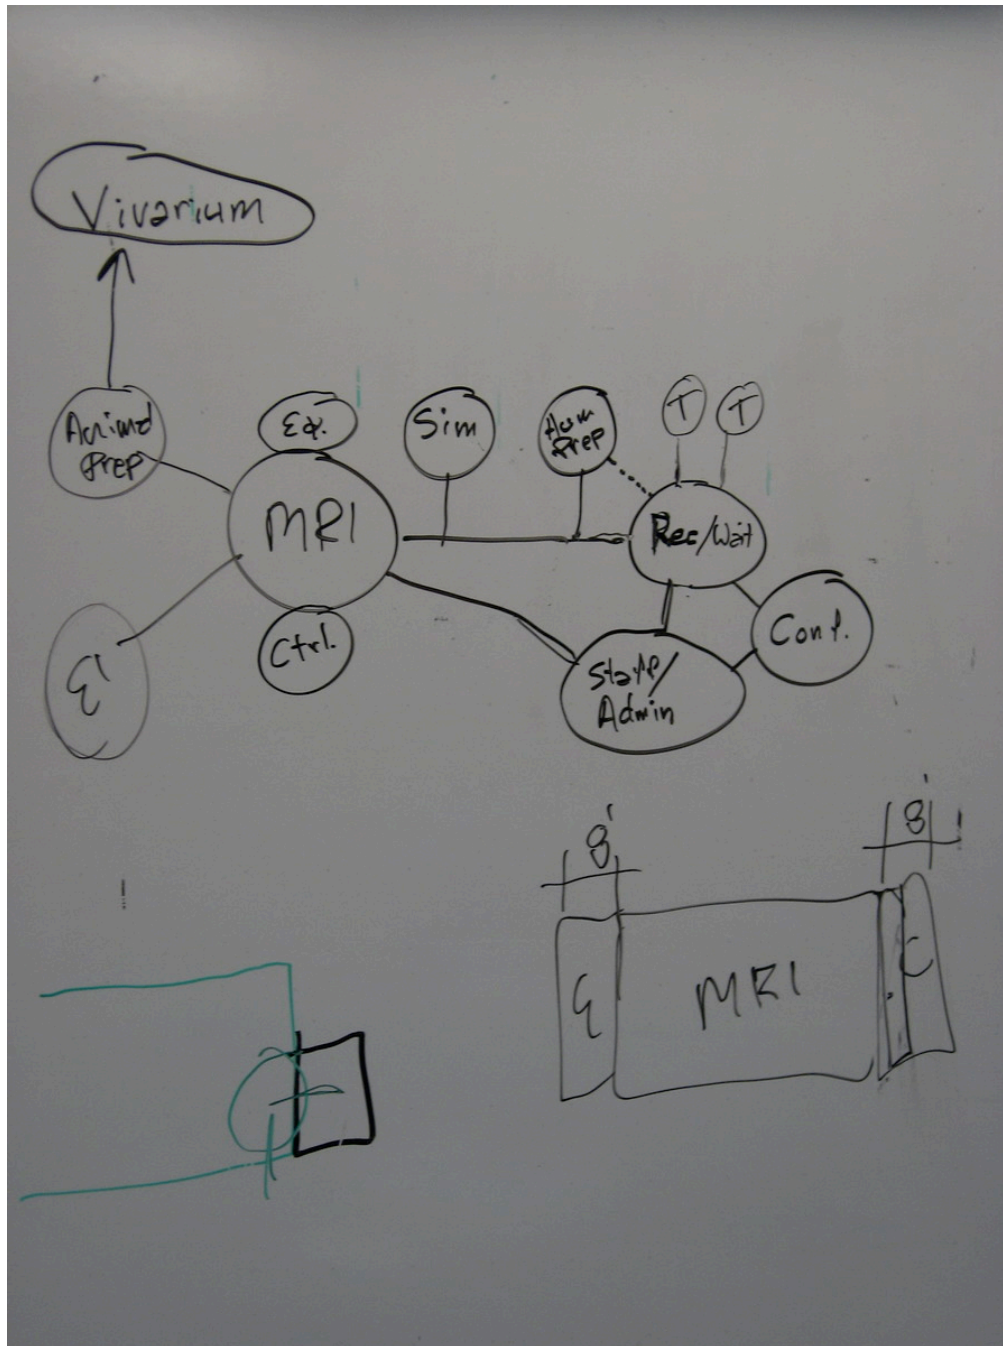

Consultants

Chuck Cassell - HDR, lab planning principal

Summary Notes

- 1.1 Discussed program revisions since last meeting; all agreed on status of program.
- 1.2 Reviewed plans from UC Berkeley for layout ideas.
 - Discussed organization and flow of spaces
 - See affinity diagram below for agreed upon adjacencies and flows
- 1.3 Discussed vibration and RF/EMI issues
 - Assured John & Scott that appropriate consultants would be retained as required to insure proper analysis of impact of MRI and other equipment in LISB and mitigation strategies as required
 - Both John and Scott asked to be kept in the loop as these sorts of issues are explored

NOTE: Attention Attendees! Please review these notes carefully as they will form the basis of future work on this project. If you feel that anything is incorrect or incomplete, please call the author at 503-227-1254.
