### General Notes - Enlarged Plan

1. See drawings on sheet G010 for the location of fire sprinklers and fire alarms throughout the building. Fire sprinklers are located in accordance with NFPA 13D requirements. Fire alarms are located in accordance with NFPA 72 requirements.

2. See schedule of fire sprinkler heads for the location of each fire sprinkler head. Fire sprinkler heads are located in accordance with NFPA 13D requirements.

3. The fire alarm system is designed in accordance with NFPA 72 requirements.

4. The fire alarm system is designed in accordance with NFPA 72 requirements.

GENERAL NOTES - FINISH PLANS

1. Exterior rainscreen panels to be provided by others.
2. Interior materials require fire/sound protection.
3. No materials to extend beyond adjacent space.
4. See Sheet G010 for typical accessibility clearances and mounting height.
5. See Sheet G010 for further finish and material information.
6. Walls are to be provided by others.
7. Ceilings - paint only.
8. False ceiling - provided by others.
9. No materials to extend beyond adjacent space.
10. See Sheet G010 for mechanical and electrical element locations.
11. Walls are to be provided by others.
12. Ceilings - paint only.
13. False ceiling - provided by others.
14. No materials to extend beyond adjacent space.
15. See Sheet G010 for mechanical and electrical element locations.
16. See Sheet G010 for typical accessibility clearances and mounting height.
