University of Oregon, Campus Planning and Real Estate

Martina Bill

University of Oregon, Student Affairs

Gregg M. Lobisser

EMU User Group

Dan Geiger

KWVA (doing project for SDJC)

Lauren Karell

AC Martin

Bob Murrin, Tammy Jow, Christopher King

SERA Architects

Natasha Koiv

02 **DISCUSSION – SUSTAINABILITY CENTER**

- a. Space standards for workstations and offices were presented and reviewed.
- b. NSF areas and quantities for staff positions were selected. The quantities were kept to a minimum, but there is a concern for future growth.
- c. The open work area should be a flexible multi-use space with a work table, couches, lounge, and floor space with rearrange able furniture.
- d. There are potential sound issues if two groups are working simultaneously in the space. A partition or acoustical separation would be nice.
- e. The existing space has a Sustainability Wall with plants and natural light. It is a demonstration wall, glassed with lath over existing brick walls. It is in a space that was formerly an ice cream parlor. It is now a showcasing earthen wall.
- f. The standard local storage room (36 sf) was presented. The Sustainability Center staff will catalogue their existing storage items to see if they fit in a 5'x7' storage room.

03 DISCUSSION – SURVIVAL CENTER

- a. Gregg Lobisser recommends that the Survival Center be listed in the program. It currently is not listed in the program.
- b. The goal of the Survival Center is not to become an addendum to another space. It should maintain its own identity and have its own door. It is a resource center for student activism.
- c. The Survival Center is currently located in the lower level of the EMU, and shares space with five different groups.
- d. The main need of the Survival Center is flex multi-use space with couches and furniture. The space should also include a work table, lounge area and open floor space.
- e. In its existing location, there are 6 computer stations, posters and an art area.
- f. Send Program Questionnaire/Survey to Karyn Smoot.
