

**PSYCHOLOGY 202**  
**MIND AND SOCIETY**  
CRN 25039  
Winter 2011 – Columbia 150 – TR-12-1:50

**INSTRUCTOR: Erica E. Claman, Ph.D.**

**EMAIL:** [eclaman@uoregon.edu](mailto:eclaman@uoregon.edu)

**OFFICE:** Straub Hall 326

**OFFICE HOURS:** Tuesday/Thursday 10:45–11:45

**TELEPHONE:** 6–5582 (this is a shared number and I may not receive messages.  
email is a much preferred mode of communication!)

**TEACHING ASSISTANTS:**

**Arielle Morganstern:** [ariellem@uoregon.edu](mailto:ariellem@uoregon.edu) Office hours: Mon. 2–4 Straub Hall 302 (6–5534)

**Brianna Hailey:** [bhailey@uoregon.edu](mailto:bhailey@uoregon.edu) Office hours: Tues. 3–5 Straub Hall 497 (6–4086)

**COURSE OVERVIEW & OBJECTIVES**

---

Welcome to Mind and Society! This course is part of a two-term sequence in introductory psychology. It is designed to provide an introduction to psychological research methods, human development, personality, emotion, stress, psychopathology and treatment of mental disorders. It is my hope that through the lectures and assigned readings you will be able to:

- ⌘ obtain a fundamental understanding and appreciation of the history, concepts, methods, and applications of psychological science.
- ⌘ apply psychological concepts to enhance understanding of yourself and others.
- ⌘ develop critical thinking skills and become better consumers of psychological research and service.
- ⌘ become more aware of and sensitive to individual differences in our diverse society.

**COURSE MATERIALS**

---

⌘ The required textbook for this course is Gazzaniga, Heatherton, & Halpern; 3rd Edition (2010). Psychological Science. New York: Norton.

⌘ In addition to your text, you are required to purchase individual access to ZAPS Online Laboratories. Registration codes come with the purchase of a new textbook, or can be purchased separately for students who already own the text. The ZAPS website is <<http://www.wwnorton.com/college/psych/zaps/>>.

**COURSE WEBSITE**

---

This course will be managed on Blackboard. Course access will be available to all students enrolled this course. Because all printed information will be distributed electronically via Blackboard, it is important to have an active account. To ensure that your account is active or to create a new account go to <<http://blackboard.uoregon.edu/>> and use your UO user name and password to log in.

⌘ If you have a documented disability and will need accommodations in this course, please make arrangements with me during the first week of class. Please request that the Counselor for Students with Disabilities send me a letter indicating what accommodations you will need.

- ⌘ If English is not your native language, and you think you may need to use a dictionary for exams, please have your dictionary checked by me or one of the TAs prior to the test. Electronic dictionaries are not permitted.

may provide documentation to Student Affairs, and if they tell me you had a legitimate and documented emergency I will take their word for it. Their phone number is 541.346.1137, or see <<http://studentaffairs.uoregon.edu>>

- ▶ You must also provide evidence that you could not have informed me of this emergency prior to the exam date.
- ▶ In case of an unexcused absence from an exam, remedial action will be determined at my discretion.

▪ **Exam dates are as follows: January 25, February 15, and March 18**

### ⌘ Laboratories

- You are required to complete 15 online labs and accompanying quizzes throughout the term. Labs and quizzes should take about 30 minutes each (sometimes a bit less).
- These labs are designed to provide an experiential component to this course to enhance your understanding of psychological concepts, phenomena and experimental procedures.
- **ZAPS Labs:** The majority of our labs will be ZAPS labs, which are online labs developed by Norton, the publisher of your textbook. Once you have registered with Norton you will be able to log onto the ZAPS site to complete the ZAPS labs. The ZAPS site will keep a record of your online activity, enabling us to track **if** and **when** you complete each lab.
- **Non-ZAPS Labs:** A few of the labs will not be ZAPS and will involve watching online videos that explore some concepts from your lectures in a bit more depth.
- **Lab Quizzes:** Every lab (both ZAPS and non-ZAPS) will have a corresponding multiple choice quiz designed to assess how well you are grasping the core theoretical ideas that underlie each lab experience. All quizzes will be taken online through Blackboard.
- **Lab and Quiz Due Dates:** You will have plenty of time to complete your labs and quizzes, but you must complete the quizzes within their given window to receive credit. Lab quizzes will be available at noon the day prior to the corresponding lecture and will remain open until noon the day after the corresponding lecture.

### ⌘ Research Participation Requirement

- As part of this course you will have an opportunity to gain more in-depth experience with research in psychology.
- There are two options for this requirement: (Option 1) Participating in real scientific experiments, or (Option 2) reading real scientific experiment reports. For both of these options, you will be quizzed on your understanding of the experimental process, which will require active participation or careful, thorough reading.
- Each student is expected to complete at least 4.5 hours of research participation via either option (or some of each). If you don't complete this requirement you will get an incomplete in this course.

#### ▪ **Option 1**

- ▶ To sign up for experiments go to <<http://uopsych.sona-systems.com>> and sign in (or create an account if you do not have one).
  - There you will find a list of studies, which are real experiments from UO Psychology and Linguistics laboratories.
  - Once logged in, you will find a list of studies that are available to you as well as the time and location of each study. You will find out what the study is about once you arrive at the appropriate location at the appropriate time, to avoid selection bias, a topic we will cover in class.

- After participating in a study you will be receive electronic credit for the designated amount of time.
  - ▶ **You will need to complete 4.5 hours of experimental credit by no later than March 10. Remember, 4.5 hours is not necessarily the same thing as 4.5 studies. Please pay attention!**
  - ▶ Additional details about how the Human Subject Pool works will be presented in class. Questions can be directed toward Ida Moadab, the Human Subjects Coordinator at <[hscoord@uoregon.edu](mailto:hscoord@uoregon.edu)>.
  - ▶ If you fail to show up (or show up too late) for two studies without a valid reason, you will not be allowed to further pursue Option 1 and will have to complete Option 2 to meet your remaining research participation requirement.
  - ▶ Option 1 requires two RERs be completed for two of the studies you participate in.
- **Option 2**
- ▶ Many students find it rewarding and enjoyable to take part in experiments. However, you always have the right to refuse to participate in research.
  - ▶ You may fulfill the research participation requirement by assigned research articles. You will gain knowledge about research methodology by reading about, rather than experiencing, the methods.
  - ▶ There will be four long research articles (which will each take a bit under an hour to read carefully, counting as one hour of research participation per paper). There will be an ethics training and quiz (CITI) that counts as .5 hours of research credit.
  - ▶ You will need to visit your TAs' office hours to receive the articles. The ethics training and quiz is available on Blackboard.
  - ▶ You must complete an RER for each and every article you read for Option 2 or the article does not count (there is no way to be sure that you read it otherwise).
- **Research Experience Reports (RERs)**
- ▶ In order to ensure that you understand the researchers' topics and hypotheses you will need to complete Research Experience Reports (RERs) on Blackboard.
  - ▶ Option 1 RER requirements: you will need to complete RERs for two studies.
    - The first RER must be completed by 11:59 pm on Feb 8.
    - The second RER must be completed by 11:59 pm on Mar 10.
  - ▶ Option 2 RER requirements: you will need to complete RERs for all studies you read.
    - The first two RERs must be completed by 11:59 pm on Feb 8.
    - The second two RERs must be completed by 11:59 pm on Mar 10.

## GRADING

---

Points for the course will be distributed as follows:

Exam 1	50 points
Exam 2	55 points
Final exam	60 points
Labs and Quizzes	45 points
Research Participation and RERs	25 points
<b>Total</b>	<b>235 points</b>

Week	Day/Date	Lecture Topic	Reading	Lab
1	Tu 1/4	Introduction	review your syllabus	---no lab---
	Th 1/6	History	Ch 1 pp. 3-29	Practice ZAPS: Stroop Effect
2	Tu 1/11	Research Methods	Ch 2 pp. 33-65	Non-ZAPS: Correlation Video
	Th 1/13	Biology	Ch 3 pp. 98-129	ZAPS: Split Brain
3	Tu 1/18	Development	Ch 11 pp. 469-495	ZAPS: Conservation
	Th 1/20	Development	Ch 11 pp. 502-518	ZAPS: Moral Development
4	Tu 1/25	*** Exam I ***	---no reading---	---no lab---
	Th 1/27	Motivation	Ch 9 pp. 379-404	ZAPS: Emotional Stroop
5	Tu 2/1	Emotion	Ch 9 pp. 405-423	ZAPS: Recognizing Emotions
	Th 2/3	Personality	Ch 13 pp. 571-589	ZAPS: Big Five
6	<b>Tu 2/8*</b>	Social	Ch 12 pp. 523-544	ZAPS: Cognitive Dissonance
	Th 2/10	Social	Ch 12 pp. 545-567	ZAPS: Prisoner's Dilemma
7	Tu 2/15	*** Exam II ***	---no reading---	---no lab---
	Th 2/17	Sleep and Drugs	Ch 4 pp. 149-175	Non-ZAPS: TBD
8	Tu 2/22	Health & Well-Being	Ch 10 pp. 427-444, 456-465	Non-ZAPS: Stress and Health Videos
	Th 2/24	Mental Disorders	Ch 14 pp. 617-635	ZAPS: OCD
9	Tu 3/1	Mental Disorders	Ch 14 pp. 636-661	ZAPS: Bipolar
	Th 3/3	Treatment	Ch 15 pp. 665-677	ZAPS: DID
10	Tu 3/8	Treatment	Ch 15 pp. 678-698	Non-ZAPS: Treatment of Schizophrenia Video
	<b>Th 3/10*</b>	Wrap-up & review	---no reading---	---no lab---
11	Fri 3/18	*** Final Exam ***	---no reading---	---no lab---

\* 2/8 is the deadline for the first RER(s)

\* 3/10 is the deadline for the second RER(s)

## CLASS ETIQUETTE

---

- This is a large class! **Please don't talk while I'm lecturing.** The din created by only 5% of the class (25 people) just whispering is enough to be distracting to your peers and me.
- Please turn your mobile phone to silent and put it away before coming to class. This means no talking on the phone, checking voicemail, or texting. You have 22 other hours in the day to do those things.
- Please try to be on time and stay for the whole class. If you cannot avoid being late (or know that you have to leave class early), please sit in the back to avoid disturbing the rest of the class during lecture.
- **Cheating in any form will absolutely not be tolerated in this class.** If you are caught cheating in any way you will receive a 0 for the assignment and further disciplinary action may be taken. If you are ever unsure about whether a behavior constitutes cheating, please see me or one of your teaching assistants. It may also be wise to read more about the university's academic dishonesty policy at <http://conduct.uoregon.edu>.

## SUGGESTIONS FOR GETTING THE MOST OUT OF CLASS

---

- I know the size of this class can be intimidating, but I highly encourage your participation! You are welcome to ask questions during class for clarification of any material presented in the lecture, to answer any questions, and to contribute any ideas or share perspectives in class discussion. Participation also includes visits to office hours and email communication.
- You are encouraged and challenged to reflect upon your own experiences and make connections with the material presented in the text and lecture. This will make the class more interesting to you and facilitate your understanding and memory of the concepts.
- **If you are having difficulty with any aspects of the course, see me or one of your TAs as soon as possible! Don't wait to see if the problem gets better on its own. You can come to office hours, talk to us after class, or email. Don't be afraid to ask for help!**
- You may encounter several questions throughout the term. Start by consulting this syllabus or asking a classmate. IF your question is not answered THEN you should contact one of your TAs, who will forward the question to me if appropriate.
  - For technical questions about Blackboard (e.g. can't log in, class doesn't appear, etc.) contact the Help Desk at 346.4412 or visit the Blackboard website.
  - For technical questions about ZAPS labs contact the Norton Help Desk at <http://books.wwnorton.com/books/techsupport.aspx?mid=106&tid=4012>
  - For questions about the Human Subject Pool contact Ida at [hscoord@uoregon.edu](mailto:hscoord@uoregon.edu)
  - For questions about the content of the course (material covered in lectures or text), quizzes, exams, grades, or other appropriate concerns contact your TAs.

I am always interested in hearing feedback from students! I like to hear what's working well, and respectful suggestions for improvement. Feel free to email me with comments or write me notes. I cannot promise that I will implement all the changes you request, but I will listen.

I wish I could know all of you, but, unfortunately, it's impossible with a class this large. If you see me around campus or in town I would be delighted if you said hello, introduced yourself and let me know you are in my class.

\*\*\*\*\*Good luck, and have a great term!!\*\*\*\*\*
