What is a “Financial Conflict of Interest”? A financial conflict of interest occurs when there is a divergence between an individual’s private interests and his or her professional obligations to the University such that an independent observer might reasonably question whether the individual’s professional actions or decisions are determined by considerations of personal gain. Potential and actual financial conflicts of interest depend on the situation and both must be managed accordingly. The identification of these financial interests does not necessarily imply any improper activities or motives on the part of the individual.

What is the purpose of this form? This form seeks to identify financial conflicts of interest that must be managed:
- to help assure the ethical conduct of research and sponsored programs,
- to address federal regulations governing externally-sponsored programs, and
- to help protect both the institution and investigators in limiting their liabilities in the conduct of university-affiliated activities.

Who should complete this form? All “Investigators” listed by the Principal Investigator on the Electronic Proposal Clearance System (E-PCS) as responsible for the design, conduct, or reporting of externally funded research or other externally funded program must submit a disclosure form.

When do I complete this form? Annual disclosures are due May 1st of each year and are based on your data from the prior calendar year (January-December). The disclosure date provides individuals the ability to use their annual income tax return information, if needed, to complete this form. A current disclosure must be on file with the Office for Responsible Conduct of Research prior to the submission of proposals for external funding. In addition, if there is a material change to the information provided (an acquisition of a significant financial interest) a new disclosure form must be submitted within 30 days of that change.

**Question:** During the last calendar year (January through December), did you, your spouse, domestic partner and/or dependent children, alone or in combination, have *significant financial interest* in an entity that:

- sponsors your research or your program,
- has *made or pledged a gift* to the University of Oregon that benefits your research or sponsored program,
- has *products, services, or research interests* that could reasonably appear to be affected by your research or sponsored program,
- *sells goods or services* to the University that will be used in your research or sponsored program, or
- has *another involvement* in your research or sponsored program (such as a consulting agreement)?

A *significant financial interest* involves:

(a) receiving compensation during the year over $10,000

or

(b) having an equity interest over $10,000

or

(c) having an ownership interest over five percent (5%).

(This does not include ‘indirect’ equity interest or ownership through mutual funds.)
