

# UO Women in Graduate Sciences

Seminar Series Presents:

**Dr. Carolyn Bertozzi**

**Informal Q & A Session and Lunch**

Dr. Bertozzi is a Professor of Chemistry at Stanford University and editor-in-chief of ACS Central Science. She is part of the Chemistry, Engineering, & Medicine for Human Health Center (ChEM-H), where the goal is to bring together chemists, engineers, biologists, and clinicians to understand life at a chemical level and apply that knowledge to improving human health. Join Dr. Bertozzi and WGS for a group discussion of the challenges facing women and LGBTQ individuals in science. Please come with your questions!
