

**AMANDA M. THOMAS**

Department of Earth Sciences  
University of Oregon  
1272 University of Oregon  
Eugene, OR 97403

Tel: (770) 314-3716

Email: [amthomas@uoregon.edu](mailto:amthomas@uoregon.edu)

Web: [pages.uoregon.edu/amthomas/](http://pages.uoregon.edu/amthomas/)

**Research Profile**

Small earthquake science, slow earthquakes, earthquake seismology, fault mechanics and rheology, data science and machine learning, strong ground motion, active tectonics, numerical analysis and modeling of geophysical data, planetary geophysics

**Education**

- Ph.D. Geophysics, University of California, Berkeley (December 2012)
- B.S. Civil Engineering (highest honors), Georgia Institute of Technology (May 2007)

**Recognitions & Awards**

- National Academy of Sciences Kavli Fellow (2022)
- Katharina von Salis visiting faculty fellow, ETH Zurich (2022)
- NSF CAREER Award (2019-2024)
- Seismological Society of America Charles F. Richter Early Career Award (2018)
- Earthscope Distinguished Lecturer (2016-2017)
- National Science Foundation Postdoctoral Research Fellowship (2013-2015)
- G. D. Louderback Award for outstanding scholarship (2012)
- Seismological Society of America Best Student Presentation Award (2010)
- National Science Foundation Graduate Research Fellowship (2008-2011)
- Geological Society of America Graduate Research Award (2008)

**Research Appointments**

- Associate Professor, University of Oregon (September 2019-present)
- Assistant Professor, University of Oregon (August 2015-August 2019)
- National Science Foundation Postdoctoral Fellow, Stanford University (2013-2015)
- National Science Foundation Graduate Research Fellow, Berkeley Seismological Laboratory, University of California-Berkeley (2007-2012)
- Graduate Student Researcher, Tohoku University, Sendai, Japan (2009)
- Undergraduate Research Assistant, Department of Earth and Atmospheric Sciences, Georgia Institute of Technology (2006-2007)
- Undergraduate Research Assistant, Department of Geological Sciences, University of Colorado-Boulder (2005)

**Submitted & Published Manuscripts**

\*\* Note: First authors contributed most of the analysis and writing of the paper. Junior group members are underlined. Asterisks indicate undergraduate authors.

### **Thesis**

1. **Thomas, A. M.** (2013) Fact or friction: Inferring rheology from low-frequency earthquakes on the San Andreas fault. University of California, Berkeley Ph.D. Dissertation.

### **Lectures & Conference Presentations**

\*\* Note: This list includes only presentations from 2016 on on which the first author was either myself or a junior advisee. Asterisks denote upcoming presentations.

- **The many manifestations of slow earthquakes and their interpretation** (A. M. Thomas)  
2022 talk at Kavli Frontiers of Science symposium, Beckman Center, Irvine, CA
- **Deep learning detection of small magnitude Earthquakes and slip transients** (A. M. Thomas)  
2022 talk at Géoazur, Nice, France
- **An introduction to small earthquake science** (A. M. Thomas)  
2022 Von Salis lecture at ETH Zurich, Switzerland
- **Data mining nontraditional seismicity using deep learning** (A. M. Thomas, J.-T. Lin, T. Newton, J. Searcy, D. Toomey, M. Bostock)  
2022 talk at the USGS Northern California Earthquake Hazards Workshop
- **Overlapping regions of coseismic and transient slow slip on the Hawaiian décollement** (A. M. Thomas, T. Lin, K. Aslam, D. Melgar)  
2022 talk at Ludwig Maximilian University, Munich, Germany  
2020 talk at the University of Utah
- **Towards a comprehensive earthquake catalog for the Pacific Northwest** (A. M. Thomas, J. Searcy, D. Toomey)  
2021 talk at the University of Washington  
2021 talk at the Seismological Society of America meeting (*INVITED*)
- **Relating Microseismicity to Fault Geometry at the Rattlesnake Ridge Landslide** (T. Newton, A. M. Thomas, S. DeLong, A. Pickering, D. R. Toomey)  
2019 poster at the American Geophysical Union, San Francisco, CA
- **The seismic expression of hydration in the crust and mantle of the Cascadia margin** (J. R. Delph, A. M. Thomas, A. Levander)  
2019 talk at the American Geophysical Union, San Francisco, CA  
2019 poster at the MCS workshop, Eugene, OR  
2019 poster at SAGE/GAGE workshop, Portland, OR  
2019 talk at the Geological Society of America workshop, Phoenix, AZ
- **Rapid Magnitude Assessment of Large Earthquakes from Machine Learning** (T. Lin, D. Melgar, A. M. Thomas)  
2021 talk at the Seismological Society of America meeting  
2019 poster at the American Geophysical Union, San Francisco, CA  
2019 poster at the MCS workshop, Eugene, OR  
2019 poster at the Seismological Society of America meeting, Seattle, WA  
2018 poster at the American Geophysical Union, Washington, D.C.  
2018 talk at the University of Oregon Machine Learning Symposium, Eugene, OR
- **Stress Regime of the Nankai Trough** (T. Newton, A. M. Thomas)  
2019 poster at the MCS workshop, Eugene, OR  
2019 poster at the SAGE/GAGE workshop, Portland, OR  
2019 poster at the Seismological Society of America meeting, Seattle, WA

- 2018 poster at the International Joint Workshop on Slow Earthquakes, Fukuoka, Japan
- **Multinomial logistic regression applied to identify tectonic tremor in Northern South America by using the Colombian National Seismic Network** (M. Gomez-Ospina, A. M. Thomas, G. Monsalve)  
2018 poster at the American Geophysical Union, Washington, D.C.
  - **Machine learning applied to some outstanding problems in earthquake science** (A. M. Thomas, T. Lin, M. Gomez-Ospina, D. Melgar, G. Monsalve)  
2018 seminar at the University of Texas, Austin, Austin, TX
  - **Using Tectonic Tremor to Constrain Seismic-wave Attenuation in Cascadia** (G. Littel, A. M. Thomas, A. Baltay)  
2018 poster at the Undergraduate Research Opportunity Program symposium, Eugene, OR  
2017 poster at the American Geophysical Union, New Orleans, LA  
2017 poster at the Undergraduate Research Opportunity Program symposium, Eugene, OR
  - **Using low frequency earthquake families on the San Andreas fault as deep creepmeters** (A. M. Thomas, N. Beeler, Q. Bletery, R. Burgmann, D. Shelly)  
2017 talk at the American Geophysical Union, New Orleans, LA (*INVITED*)
  - **Characterization of aftershock sequences from large strike-slip earthquakes along geometrically complex faults** (E. Sexton, A. M. Thomas, B. Delbridge)  
2017 poster at the American Geophysical Union, New Orleans, LA
  - **Tidal sensitivity of declustered low frequency earthquake families and inferred creep episodes on the San Andreas Fault** (A. Babb, A. M. Thomas)  
2017 poster at the American Geophysical Union, New Orleans, LA
  - **Stress orientations in the Nankai Trough region of Japan** (T. Newton, A. M. Thomas, Q. Bletery)  
2017 poster at the American Geophysical Union, New Orleans, LA
  - **Dense array studies of volcano-tectonic and long-period earthquakes beneath Mount St. Helens** (M. Glasgow, S. Hansen, B. Schmandt, A. M. Thomas)  
2017 poster at the American Geophysical Union, New Orleans, LA
  - **Imaging shear strength along subduction zones** (Q. Bletery, A. M. Thomas, A. W. Rempel, J. L. Hardebeck)  
2017 poster at the CIDER workshop, Berkeley, CA  
2017 talk at the Seismological Society of America meeting, Denver, CO (*INVITED*)
  - **Mega-earthquakes and fault properties** (Q. Bletery, A. M. Thomas, A. W. Rempel, A. Sladen, B. Delouis, M. Simons)  
2017 seminar at the Berkeley Seismological Laboratory, Berkeley, CA  
2017 seminar at the United States Geological Survey Earthquake Science Center, Menlo Park, CA  
2017 seminar at the Institut de Physique du Globe, Strasbourg, France  
2017 seminar at the Ecole Normale Supérieure, Paris, France  
2016 seminar at the Cascades Volcano Observatory, Vancouver, WA

- **Source properties of LFEs in Parkfield and Cascadia** (A. M. Thomas, M. Bostock, G. Beroza, A. Rubin, D. Shelly, G. Savard, L. Chuang)
  - 2018 seminar at the University of Texas, Austin, Austin, TX
  - 2016 seminar at the University of California, Davis, Davis, CA
  - 2016 seminar at the SCEC Annual Meeting, Palm Springs, CA (*INVITED*)
  - 2016 seminar at the University of New Mexico, Albuquerque, NM
  - 2016 seminar at Harvard University, Boston, MA
  - 2016 seminar at Oregon State University, Corvallis, OR
  - 2016 seminar at University of Washington, Seattle, WA
  - 2016 seminar at Scripps Institution of Oceanography, San Diego, CA
- **How fault geometry controls earthquake magnitude** (Q. Bletery, A. M. Thomas, A. W. Rempel, L. Karlstrom, A. Sladen, L. De Barros)
  - 2016 poster at the American Geophysical Union, San Francisco, CA
  - 2016 talk at the UJNR meeting, Napa, CA (*INVITED*)
  - 2016 poster at the SCEC meeting, Palm Springs, CA
- **Past and future great earthquakes in Cascadia** (A. M. Thomas)
  - 2017 seminar at the Oakridge Public Library, Oakridge, OR
  - 2016 seminar for the Lane League of Women Voters, Eugene, OR
- **Constraints on source properties of LFEs in Parkfield, CA** (A. M. Thomas, G. Beroza, D. Shelly)
  - 2016 talk at the AGU Chapman conference on slow slip, Ixtapa, Mexico
  - 2016 talk at the Japanese Geophysical Union meeting, Chiba, Japan (*INVITED*)
  - 2015 talk at the Earthscope National Meeting, Stowe, VT (*INVITED*)
- **Catalog and Characteristics of Earthquake Swarms in Northern California** (S. Chlorini, A. M. Thomas, V. Lekic)
  - 2016 poster at the American Geophysical Union, San Francisco, CA
- **Automated detection of secondary slip fronts in Cascadia** (Q. Bletery, A. M. Thomas, R. D. Krogstad, J. C. Hawthorne, R. M. Skarbek, A. W. Rempel, M. G. Bostock)
  - 2016 talk at the American Geophysical Union, San Francisco, CA (*INVITED*)
  - 2016 poster at the AGU Chapman conference on slow slip, Ixtapa, Mexico
- **Investigating tidal triggering of induced seismicity in Oklahoma using Schuster Spectra** (K. M. Pearson, A. M. Thomas, V. Lekic)
  - 2018 talk at the Seismological Society of America meeting, Miami, FL
  - 2016 poster at the Eastern Section Seismological Society of America meeting, Reston, VA

- University of California, Berkeley EPS 12: *The Planets* (2012)
- University of California, Berkeley EPS 116: *Structural Geology* (2011)
- University of California, Berkeley EPS 39: *Geological Influences in California* (2010, 2012)
- University of California, Berkeley EPS 122: *Physics of the Earth* (2008)
- Georgia Institute of Technology Math 1711: *Finite Mathematics* (2006)
- Georgia Institute of Technology Math 2401: *Multivariable Calculus* (2006)
- Georgia Institute of Technology Math 1501: *Single Variable Calculus* (2005)

### **Professional Service**

#### Outreach activities

- (In progress) collaborative development of place-based laboratory assignments for Geoscience students at Heritage University
- Public talks on earthquake hazard in Cascadia to organizations such as the Oakridge Public Library and Lane League of Women Voters

#### Scientific community

- CoPI for development of CRESCENT, a subduction zone earthquake science center focused on the Cascadia Subduction Zone (2019-present)
- Co-organized the Syros science workshop on slow slip which included attendees from UO, ETH-Zurich, Lausanne, Purdue, and Berkeley
- Editor, EOS: Science News by AGU (2019-present)
- Modelling Collaboratory for Subduction Zones Steering Committee and contributor to SZ4D planning efforts (2017-2023)
- Organizer of Megathrust Earthquake Modeling workshop held at UO October 6-9, 2019
- Session chair at AGU (2012), JpGU (2016), SSA (2019, 2021)
- Member, IRIS Data Services Standing Committee (2017-2020)
- Referee for manuscripts submitted to *Geophysical Research Letters*, *Earth and Planetary Science Letters*, *G-Cubed*, *Geosphere*, *Science*, *Journal of Geophysical Research*, *Nature Geoscience*, *Science Advances*, *Terra Nova*, and proposals submitted to the *National Science Foundation* and *United States Geological Survey*

#### University community

- Undergraduate Research Opportunities Program (UROP) Faculty Advisory Group (2017-2018)
- University of Oregon state and federal relations delegate tasked with testifying and promoting Earthquake Early Warning to Congressman Peter DeFazio, Senator Jeff Merkeley, and other Oregon legislators (the overarching goal of this effort is to promote EEW on the west coast and to secure recurring investment by the State of Oregon in seismic monitoring) (2015)
- Aided in lobbying the State of Oregon to purchase 15 Transportable Array stations that were due to be decommissioned in summer of 2015. This, to my knowledge, is the first investment in seismic monitoring by the State of Oregon (2014)

#### Department community

- Wrote or rewrote 9 2+ hour laboratory exercises for EARTH 201 in Fall 2022
- Attempting to revamp the Columbia 47 lab space by getting new lighting, painting, changing wall hanging, removing clutter, organizing the lab materials, and attempting to get computers installed so we can do the Google Earth based labs
- Meierjurgan committee (2022-present)
- *Graduate admissions committee* (2018-2021)
- *Earth Science geophysics track advisor* (2019-present)
- Earth Science weekly Seismology Seminar Organizer (2017-present)  
<https://geophysics.uoregon.edu/seismogroup.html>
- Wrote and maintain the University of Oregon geophysics group webpage:  
<http://geophysics.uoregon.edu/>

- Geodesy Search Committee member (2017)
- Organized seminar for graduate students on applying to national fellowship programs and provided feedback on several research and personal statements of graduate students in the Geological Sciences Department (2015 and 2016)
- Developed a new Freshman Interest Group (FIG) course called Volcanoes in Your Backyard designed to recruit undergraduates into geology (2014)

### **Advising**

- Undergraduate students: Mariana Gomez (UNC-Medellin, IRIS Intern Summer 2018), Ty Amorsano (McGill University, IRIS Intern Summer 2018), Geena Littel (UO, 2015-spring 2018), Shane Cooper (UNR, IRIS Intern Summer 2014), Cansu Culha (UC-Berkeley, 2011-2012)
- Graduate Students (primary advisor): Tyler Newton (Ph.D., 2022), Tim Lin (Ph.D., 2022), Avery Connor (Ph.D., current), Renee Nassif (M.S., current), Yu-Sheng Sun (Ph. D., current), Brenton Hirao (Ph. D., current), Alex Babb (M.S., 2018), Emily Sexton (M.S., 2018)
- Graduate Students (committee member): PJ Zrelak (Ph.D., current), Sydney Dybing (Ph.D., current), Tara Nye (Ph.D., current), Kate Scholz (Ph.D., current), Lexie Klimasewski (M.S. 2020), Brennah McVey (M.S. 2019), and Karen Pearson (Ph.D., U. Maryland, current)
- Postdoctoral scholars: Cyril Journeau, Khurram Aslam, Jonathan Delph, Quentin Bletery, Rob Skarbek
- Visiting Students: Lois Papin
- Software engineers: Loic Bachelot
