Regular meeting of the faculty.
All members present.
The minutes of the previous meeting were read and approved.

On motion of Professor Schafer the following resolution was adopted:

"Inasmuch as systematic work in debating deserves all reasonable encouragement because of the importance of the intellectual training it imparts; and, inasmuch as the men who are annually chosen to represent the University in the regular intercollegiate debates are obliged, in order to make a creditable showing, to devote to the study of the question for debate, under faculty direction; an amount of time fully equivalent to three semester hours of class work, usually at the expense of their regular schedule, which ought to be lightened during the time in which debates are being prepared, therefore be it resolved

That, in the discretion of the faculty, no one objecting, those students participating in the intercollegiate debates, under faculty direction, may be granted University credit to the amount of three semester hours, or less, for their work on the subjects of such debates.

The prerequisites for granting this credit shall be:
The student shall do creditable work in the intercollegiate debating contest.
He shall not have neglected any of his regular class work."
