ADOPTED
committee appointed on the proposed requirements for the Bachelor of
Music degree were adopted:

"The following requirements are proposed for
candidates for the Mus. Bach. degree. It is hoped that this schedule will
give the credit which ought to be given to the practical work in music,
allow the pupil to take a full course in the theoretical work, and yet
allow for a fairly broadening course without which we feel that no
University degree should be granted. In this schedule the practice which a pupil does is considered as laboratory work and credit is given on that basis.

3. To require all students of an H grade to take the course in Freshman English Composition as now conducted.

4. To require I and J students to take a course to be organized to meet the needs of those whose English is unusually defective.

In order to tone up the general English of the University students, the following recommendations were made:

1. In case of those students whose English in any subject is deficient, the instructor shall assign the letter I to the student's mark in that subject.

2. The Registrar shall be directed to have the above rule printed upon the blanks which he distributes each semester for the filing of grades.

3. The English department shall be directed to consult the Registrar's records from time to time and take measures to improve the English of those students whose English is generally deficient as shown by their being reported by a number of professors according to rule 1.

   This admission to honor standing shall be made at registration time,
   either in the fall or in the winter, and shall be indicated on the cards.
   As soon as possible after registration each semester the Registrar shall
   prepare and make public a roll of the students admitted to standing as
   Honor Students.

Honor Students shall be

2. The basis of admission to standing as
   Honor Students in advanced work only, and all elementary courses shall be
   covered as heretofore. Honor studies shall be listed as such on the
   student's card, and the total number of hours carried per semester shall
   not exceed 18 hours.

4. The major professor or supervisory committee
   may at registration time at the beginning of any semester revoke the grant
   of honor standing, and return the student to general student standing, if it
   becomes evident that he is not profiting by honor work.

5. The instructors under whom the work is done
   shall be responsible for the proper performance from semester to semester of
   the honor work done by the students they have admitted to honor standing.
   In case of honor work directly supervised by themselves, they shall provide
   such system of conferences, papers, and examinations, oral, written or both,
   as shall enable them to report at the end of each semester upon the
   satisfactory progress of the honor work. In case of a student doing honor

If the committee is unwilling to recommend him for highest honors, it shall designate the grade to which it considers his work entitles him. This examining committee shall be constituted by the method designated in legislation heretofore enacted to govern the granting of highest honors, but shall in no case consist of less than five members, or be competent to examine with less than five members present. Of the final examinations given each Honor Student at least one must be oral. Such examinations shall total not less than three hours. In any case where a student has not presented a thesis, he shall be subjected to a written examination.

7. Each Honor Student's work being in the hands of a supervisory committee responsible for its satisfactory prosecution, instructors may at their option be released from the obligation to report absences in honor work, but absences in non-honor courses taken by Honor Students shall be treated as at present.

9. This legislation shall be considered amendatory of that heretofore governing the granting of highest honors, especially in the section concerning the examining committee.

INTERCOLLEGIATE ATHLETICS

Loved by Professor Howe as an amendment to the amendment that the whole matter be referred to a committee of the faculty to report at the next meeting. The motion carried and the following committee was appointed:

PETITION REGARDING DANCES

The following petition from the Student Council has been received:

"As a representative of the Student Council, I am hereby presenting a suggested amendment to the newly adopted Social Rules:

Rule VI to be amended so that it will read: "The organizations of proper standing and of the Associated Students and Sigma Chi, Delta Chi, Alpha Omega, Delta Upsilon, Phi Delta Theta, Phi Delta Rho, Alpha Chi Omega, Alpha Lambda Delta, Sigma Chi, Sigma Nu, Phi Delta Theta, and any similar organization may have members be found."

We would like to have one date each semester and would suggest that the first date, by precedent, be the last day of the Thanksgiving break. The date during the second semester could be adjusted to prevailing conditions. For the purpose of establishing a precedent in favor of the suggestion, we will consider that our first semester's date for this year has been taken, so that the Student Body, should this resolution be adopted, would have the privilege of giving but one dance this year.

It is the sentiment of the Student Council that the action of the faculty in limiting the number of dances is desirable; our objection to the rules is that they do not extend to the Student Socs, presumably the largest organization on the campus, the same rights as smaller organizations.

Respectfully submitted,

Leslie Toone,
Representing the Student Council."
Loved by Professor Strub that the petition be granted. Loved, as in president, that the petition be referred to a committee of three to report back to the faculty.

The motion carried. The following committee was appointed:

REPORT OF SPECIAL COMMITTEE ON ATHLETICS

The following report of the special committee on athletics was received:

I. That the University of Oregon believes in and will continue intercollegiate athletics and intramural sports; for the latter provision shall be made sufficient to permit every student to take daily exercise in his favorite branch of sport.

II. That the University re-assert its purpose to maintain all college sports on the highest and cleanest amateur basis.

III. That gate receipts should be subordinated as a factor in intercollegiate athletics; and to this end all coaches, trainers, and athletic directors should be permanent employees of genuine educational standing; paid wholly from the general funds of the institutions to which they are attached, and in no way dependent upon the commercial success of their respective sports.

IV. That the University of Oregon forbid all "scouting" for athletes by its official representatives, and discourage in all possible ways "scouting" by students, alumni and other friends of the institution. Official adoption of this policy is urged upon the Northwest conference.

Scouting consists in any solicitation of prospective students with a view to their becoming candidates for positions on varsity teams.

V. That the representatives of the University at conference meetings which determine or control intercollegiate athletics shall be appointed by the president from the University faculty; and that the same general policy shall be urged upon the Northwest Conference.

VI. That the three faculty members of the Athletic Council constitute a standing committee of the faculty, instructed to report at least once each semester.
VII. That the University of Oregon urges the adoption by the Northwest Conference of the rule that no freshman or any other student during his first year in the institution shall be permitted to take part in intercollegiate athletics.

VIII. That the pre-season training camp for the varsity football squad be discontinued, and the same policy be urged upon the Northwest Conference.

IX. That the practice period for varsity teams be limited to from four o'clock to six-thirty o'clock P.M.

X. That no money from University or student body funds shall be expended on maintaining a training table for athletes.

XI. That intercollegiate football contests be limited to seven in any one season, of which not more than three shall be conference games.

XII. That intercollegiate basketball games be suspended for the present to test the advantages of enabling the athletic directors to give their whole attention to the development of intramural sports during the winter season.

XIII. That intercollegiate baseball as well as basketball be restricted to teams of institutions east of the Cascade mountains, except as games with the winning team east of the mountains may be necessary to determine the Northwest championship.

XIV. That no student shall, without special permission of the faculty, participate in any "student activity" during the semester next following the semester in which he has received a final grade of "C" in any subject, or in any case of withdrawal from any course before the end of the semester, or has received during the period of withdrawal, an average grade below "C" in that subject.

[Dr. Barnett's resolution]

The committee consider the following questions as having a bearing on other matters in addition to athletics, and refer them to the faculty for special consideration:

1. The desirability of requesting the Board of Regents to make payment of the student body tax voluntary, instead of compulsory, as at present.

2. The desirability of making Junior Week and an interscholastic festival in the broadest sense, and until such extension is possible, the desirability of spending student body funds in bringing high school athletes to the University for purely athletic purposes.

REPORT OF COMMITTEE ON INTRAMURAL SPORTS

Prof. DeCou made a report of the Committee on Intramural Sports, which he desired to have incorporated in the faculty minutes. The report is as follows:

"The Committee consists of Prof. DeCou, Chairman; Professors Howe, Dyment and Prescott, Mr. Hayward, Mr. Bosdek, Miss Cummings and President Campbell, ex-officio. It was appointed by President Campbell to make plans for carrying into effect the recommendations of the Special Athletic Committee, recently adopted by the faculty. The core of that report was a strong emphasis on the urgent need of intramural sports.

1. To provide an incentive and an opportunity for every student to secure at least one hour's physical activity daily as a balance to the sedentary demands of university life;

2. To conserve the social and moral values of games and sports and to secure to every student the fullest opportunity for their practice;"
3. To develop the habit of exercise. We find the facilities on the University campus entirely inadequate to meet the need for intramural games and sports and make the following recommendations to meet immediate pressing needs:

First, That a golf course be laid out at once on the new athletic field for the use of students and faculty at a cost of $100 to $150. Such a course will give opportunity for sufficient exercise throughout the year for 200 persons - 100 men and 100 women.

Second, That a dozen dirt tennis courts, surfaced with rock dust be provided on the lower campus at an estimated cost of $750 or $800 (Mr. Fisher's estimate) for use next spring; also that permanent asphalt or other courts be added from time to time as expense will permit. A dozen courts will accommodate for play three times per week about 400 men and women.

Third, That a permanent baseball diamond be provided on the new athletic field for the use of the varsity team next spring at a cost of not less than $1500. This will leave the baseball diamond on the lower campus free for the use of class teams, the doughnut league, etc.

Fourth, That a woman's pavilion 50 feet by 80 feet, roofed over and open at the sides above the first three feet be built at once on the south side of the Women's Gymnasium at an expense of $750 to $800. (Mr. Heckart's estimate.) The pavilion would double the present floor space, make possible a much better schedule of required gymnasium work, especially for the sophomore girls, provide outdoor exercise during the rainy season in basketball, tennis, volley ball, indoor baseball, etc., and be in constant use at all seasons. Miss Cummings says, "This school can at comparatively small expense relieve the congestion in lower class work, offer opportunities for continuing exercise at a season when most colleges are offering only indoor work."

There are numerous other needs which can be deferred until these four pressing demands, involving but small outlay, are met."

The faculty adjourned.

Acting Sec'y.
