SPECIAL MEETING OF THE FACULTY

The meeting was called to order by President Campbell. A quorum being present, the following business was transacted.

ër COMMITTEE ON ADMISSIONS: The report of the Committee on Admissions and Advanced standing submitted at the previous meeting (see page 366), was taken up for consideration. Upon motion of Dr. Sheldon it was voted to adopt the report with the following two provisions:

E. That this legislation shall not be considered as repealing any of the specific prescriptions for entrance now in the statutes of the faculty.

F. That a committee of five be appointed to investigate conditions as regards entrance requirements in other state universities and report to the faculty on the advisability of a more flexible system of entrance requirements based on needs of different schools in the University. The following committee was appointed: Dean H. D. Sheldon, Dean E. C. Robbins, Dean Colin V. Dyment, Professor E. E. DeCou, and Mr. Carlton E. Spencer.

RESIDENCE AT MEDICAL SCHOOL TO COUNT TOWARD BACHELOR'S DEGREE:

Dr. Torrey submitted the following motion: That with respect to the requirements for the bachelor's degree, residence in the school of medicine at Portland shall be regarded as equivalent to residence in course at Eugene.

In support of the motion are the accompanying facts:

1. The fourth and fifth years of the medical curriculum are academic, non-professional, devoted to fundamental sciences entirely appropriate as prerequisites for the bachelor's degree.

2. Admission to the fourth year of the medical curriculum can follow only upon the satisfactory completion of the curriculum for the first three years which this faculty has already accepted and conforms with the requirements for the bachelor's degree.

3. A committee on which this faculty is represented administers the regulations of the faculty with reference to admissions and advanced standing. No applicant whose work does not conform with the regulations of this faculty governing the work of the first three years can be admitted to the fourth year, nor can he be granted the bachelor degree necessary for his graduation from the school of medicine.

4. Evidence at hand indicates that the effect of the seven year unit course in medicine will be to encourage students to pursue the first three years at Eugene rather than elsewhere. Carried.

INVITATION TO MEDICAL SCHOOL FACULTY:

Upon motion of Professor DeCou it was voted that a committee of three be appointed to arrange for an invitation to the Faculty of the Medical School to visit the campus at Eugene. The following committee was appointed: Dr. Torrey, Dr. Bovard and Dean Dyment.

1. A student failing to make passing grades in at least three hours any term shall be dropped automatically from the University.

2. A student making more than two hours but failing to make passing grades in at least nine hours any term shall be placed on probation automatically for the following term of his attendance.

3. A student, special or otherwise, who has been permitted to carry nine hours or less must make satisfactory grades in all his work or be placed on probation.

4. A student failing to make nine hours any term shall make during the succeeding term, hours sufficient to bring the total number of hours made during the two terms involved up to seventeen. A student failing to do so shall be dropped from the University. If he succeeds in making, during the succeeding term, hours sufficient to bring the total number of hours made during the two terms involved up to seventeen he shall be removed from probation.

5. A student who has been placed on probation under three above and who carried during the term of his or her probation less than enough hours to bring the total for the two terms up to seventeen provided all are passed, must pass in all the hours carried during the probationary term or be dropped from the University. Success in passing all the hours carried during the probationary term will remove such a student from probation.
6. Students who fail to make nine hours during the third term in any academic year shall be subject to regulation four above unless before registering again for work in the regular academic year they shall have completed in summer school, by correspondence or otherwise, sufficient university credits to total, when added to those earned in the term mentioned, at least fourteen term-hours.

10. A student who has been placed on probation is charged with the obligation of keeping his scholarship, his attendance, and his deportment up to standard in all respects and he is subject to call at any time to appear before the Probation Committee and show that he is so doing or to submit such evidence as may be called for by the committee.

II. Students placed upon probation shall be barred from all student activities whatsoever, and any student having been placed upon probation who accepts or continues to hold, or to exercise the duties of, or to bear the title of any student body, class, committee or any other office or position in any way connected with or representative of the student body or any part thereof, shall be dropped from the University.

12. The provisions herein contained pertaining to probation, shall in no wise be construed as affecting any probationary requirements that may be imposed by the Student advisory committee or any committee other than the Probation Committee.

13. Any student may appeal in writing to the Probation Committee for mitigation or interpretation of any of the provisions contained herein: but the committee shall be considered as under faculty direction to grant mitigation only under special circumstances in which genuine equities shall appear.

REVISION OF THE GRADING SYSTEM. Dean Dyment, reporting on behalf of the Faculty Colloquium submitted the following revision of the grading system:

The colloquium committee appointed at the February meeting to re-word the Missouri system so as to interpret it for University of Oregon use recommends that the following be substituted by the faculty for the Missouri system legislation of January, 1912:

Students are graded as to scholarship by being placed in classes I, II, III, IV, V, Failed, Incomplete, Conditioned, or Withdrawn.

"An instructor may at his discretion give an Incomplete when the work done in a course has been of passing grade, but when not quite all of the work of the course assigned in the term just ending has been finished by the time of the final examination.
"As a means of promoting a uniform standard of grading in the faculty, without interfering with any instructor’s estimate of individual classes, it is understood that over a term of years, and taking into account a comparatively large number of students, an instructor’s passing grades ought to have been distributed about as follows:

I's and II's 20 to 25 per cent.

III's and IV's 55 to 65 per cent.

V's 15 to 20 per cent.

"No account is taken in the foregoing of Incompletes, Withdrawals, Conditions, or F's. It is further understood that in the first and second years the average of an instructor’s grades is likely to run lower than in the third and fourth years; also that the distribution of grades suggested does not necessarily apply to graduate classes or to instructors whose classes, by reason of advanced work, are uniformly small." The report was adopted.

ACCOUNTING TO FULFILL GROUP IV. Dean Robbins moved that, as to students working for the degree of B. B. A accounting be added to the subjects which may be taken in fulfillment of Group IV. Upon motion of Dean Hale the motion was amended so as to apply to all students of the University. The amendment was carried. The question as amended was put to vote and carried.

WITHOLDING OF CREDIT. Dean Hale submitted the following resolution.

RESOLVED that the law faculty be authorized to grant no credit and to withhold grades in continued courses in the School of Law until their completion, at which time the grades reported shall be entered as the grade rating for the entire course.

For the convenience of the registrar each student registered in a continued course shall be reported on the term grade sheet with the nominal grade of "R" if the course has not been completed.

As a part of this system it is understood that the student shall be held accountable in the final examination for the work covered from the beginning of the course. Examinations shall be held at the close of each quarter but such examinations in continued courses shall rank only as quizzes.

Upon motion of Dean Young the resolution was amended to include all departments and schools of the University. It was moved and carried that this matter be referred to a committee of five. The following committee was appointed: Dean Dyment, Dean Hale, Professor Howe, Dr. Boynton, Mr. Spencer.

AMENDMENT OF THE STUDENT-BODY CONSTITUTION: The matter of the amendment of the Student-body Constitution as pertains to the Athletic Council was presented by Professor Howe and approved by the Faculty.

NOTICE OF MOTION TO LIMIT DEGREES FOR FOUR YEARS’ WORK: Dean Dyment announced that he would defer his motion in regard to the granting of more than one degree for four years’ work to the next meeting.

REGULAR MEETING OF THE FACULTY

The meeting was called to order by President Campbell. A quorum being present the following business was transacted.

The minutes of the previous meeting were read, corrected and approved.

WILFORD H. BELKNAP. A petition was received from Mr. Wilford H. Belknap to be granted the Bachelor's Degree having done three years of work at the University of Washington and completed one year of work at the University of Oregon Medical School. This matter was referred to a committee consisting of Torrey, Dyment, MoAllister.

BACHELOR'S DEGREE FOR MEDICAL STUDENTS. Dean Dyment submitted the question of granting the bachelor's degrees to students who complete three years of work at the University of Oregon and a fourth year of work at a medical school other than that of the University of Oregon. This question was also referred to the above committee.

ONE DEGREE ONLY IN FOUR YEARS. Dean Dyment submitted the following motion: That no individual who receives a Bachelor Degree from the University of Oregon in any of its departments or schools, may receive a second Bachelor Degree without having passed in at least forty-five hours of work in addition to the one hundred and eighty-six now prescribed for the first degree.

DOROTHY M. Dickey. A petition was received from Dorothy M. Dickey asking for exemption from the operation of the above rule and that she be allowed to earn the B.A. and B.M. in four years. It was moved and carried that this petition be referred to Dean Dyment for investigation and to be reported upon at the next faculty meeting.

HUBERT SCHENCK: Professor Howe, Chairman of the Graduation Deficiencies Committee reported regarding the request of Hubert Schenck for thirty-six hours of credit for work done under the direction of Dr. W. D. Smith in the Philippine Islands. Professor Howe reported that a communication had been received indicating that Mr. Schenck had changed his plans and it was moved and carried that the matter be laid on the table.

PRELIMINARY REPORT ON REVISION OF THE HONOR SYSTEM. Professor DeGou, Chairman of the committee on revision of the honor system, reported progress. It was moved and carried that the matter of making a list of students for honorable mention be referred to this committee.

REPORT ON "R" GRADES FOR THE LAW SCHOOL. Dean Dyment, Chairman of the committee on "R" grades for the Law School submitted the following report:

1. There is already provision in the university law for suspension of a grade under certain circumstances. Suspension may be accomplished through the grade incomplete, or the grade condition. The committee is not suggesting herein, however, that the present legal interpretation of these two grades should be stretched to permit them to cover further types of suspension than those now authorized by the rules governing incompletes and conditions.

2. In petitioning for permission to grant the grade of R, the School of Law is not asking the privilege of suspension of grades, so much as the privilege of changing grades. That is, it desires to make the examination of the last term of any law course cover the work of all the terms of that course, and to have the grade in this final term determine the grade for all terms of the course,
previous grades to be changed to correspond with the final grades.

3. It amends its original petition as follows: In order to make possible the continued publication of the Grade Sheet and the compilation of grade averages: Grades given prior to the final grade would be transmitted to the Registrar as M I, M II, M III, or whatever the work might call for. The Registrar could use the exponent numeral instead of the letter in his computation of grades for competitive averages, and in the Grade Bulletin.

4. The committee feels that the principle of basing the final examinations of final terms upon the work covered in all the terms of a course is not unsound; and is accordingly in sympathy with that part of the Law School's contention.

5. The committee feels that to institute the practice of revising grades in the whole university would result in much more confusion that the institution of it in a single, and in this case, comparatively small, academic unit. It therefore recommends against adoption by the faculty of the grade as a general innovation.

6. It recommends that the petition of the School of Law not be denied, provided that instructors shall report for each student each term along with the grade of R an exponent grade that will represent the student's work for that term, for the Registrar's purposes.

Moved by Dr. Clark to lay the motion on the table. The motion lost. Moved by Dr. Harnett that the report be adopted. Moved by Dean Young that the motion be amended extending the privilege to all departments and schools of the University. The amendment was lost. The vote was then taken on the original motion to adopt the report. Carried.

RESOLUTION FOR FACULTY TO WEAR CAPS AND GOWNS AT COMMENCEMENT. Professor Dunn submitted a resolution providing for the wearing of caps and gowns by the faculty at commencement. Upon motion of Professor Cloran the matter was referred to a committee to report next fall.

The following committee was appointed

The meeting was called to order by President Campbell. A quorum being present the following business was transacted.

The minutes of the previous meeting were read and approved.

BACHELORS' DEGREE FOR MEDICAL STUDENTS. Report of committee on interpretation of the rule governing the bachelors' degree for medical students was received as follows: (Excerpt)

On Thursday, March 10, 1921, the Faculty voted "That with respect to the requirements for the bachelors' degree, residence in the School of Medicine at Portland shall be regarded as equivalent to residence in course at Eugene." This legislation enables students, who hereafter enter the Medical School after having taken three years of Liberal Arts work at a standard college or University other than the University of Oregon, to obtain the bachelors' degree upon the completion of one year in the Medical School of the University of Oregon, provided; such students have fulfilled the general requirements for graduation.

The Committee recommends that the above legislation be made retroactive to the extent that it apply to students now enrolled in the Medical School.

To this Committee was also referred the question of granting the bachelors' degree to students who complete three years of work at the University of Oregon and a fourth year of work at a Medical School other than that of the University of Oregon.

The Committee recommends that in such cases no exception be made to the general rule which requires that the year's work immediately preceding the granting of a degree be done with the University of Oregon.

BLANKET ACCREDITING FOR ADVANCED STANDING. Dean Dyment gave notice of a motion to adopt the following resolution which had been approved by the Committee on Higher Educational Standards of the State Teachers Association.

Resolved, that the University of Oregon shall give no blanket accrediting to candidates presenting credits for advanced standing but instead shall translate all such credits into terms of its own and appraise them accordingly.

PACIFIC COAST CONFERENCE RULES. Professor Howe gave notice of the following motion to be voted on at the December faculty meeting.

Whereas, this faculty, October 21, 1915, after prolonged investigation of athletics by a special committee decreed that the Northwest Conference scholarship rules shall cover eligibility to all student body activities in the University of Oregon, and

Whereas, since then the faculty has voted to make this institution a member of the Pacific Coast Conference, which involves coming under its scholarship rules, and
Whereas, last spring the faculty adopted rules to govern the Probation Committee which are in conflict with both the North-West and the Pacific Coast Conference rules and has thus caused a conflict of jurisdiction between the Athletic and Probation Committees, therefore

Be it resolved:

1. That the rules of the Pacific Coast Conference shall govern eligibility to all student body activities, and

2. That the grade condition be abolished.

HOLIDAY ON FRIDAY AFTER THANKSGIVING. Mr. Norton Winnard and Miss Helen Carson, representing the student council, presented a petition from the student body asking the faculty to grant a holiday on the Friday following Thanksgiving Day. The petition was received and it was voted to grant the holiday.

REGULAR MEETING OF THE FACULTY

The meeting was called to order by President Campbell. A quorum being present, the following business was transacted. The minutes of the previous meeting were read and approved.

AMOUNT OF WORK TO BE CARRIED BY STUDENTS. The following resolution was received on report from the Colloquium Committee:

Resolved that University Regulations be amended by striking out sections 40, 41, 50 and 52 and substituting therefor the following:

"A normal schedule is 15 to 16 hours a week. Each student, however, is subject to the restrictions and requirements of his school or department and of his major professor within the following limits:

A student may be permitted or required to carry as few as 12 hours or as many as 19 with the proviso that in no event shall he receive more than 18 term-hours credit toward graduation unless his grades average above III (3).

(It is understood that the above legislation is to apply to all schools and departments and that it abrogates all previous legislation in conflict therewith.)"

Consideration of this resolution was postponed until the next meeting.

MEMBERS OF ADVISORY COUNCIL. The Secretary of the Advisory Council reported that Dean Hale and Professor Howe were to hold over as members of the Council and that there were to be elected two deans and two professors not deans. The faculty proceeded to the election of members of the advisory council with the result that the following were elected: Deans Sheldon and Robbins and Professors Gilbert and Packard.

BLANKET ACCREDITING. As a substitute for the resolution regarding blanket accrediting submitted by Dean Lyment at the last meeting the committee on admissions and advanced standing submitted the following:

"Resolved that credentials from other institutions shall be evaluated with regard to their relationship to the course of study to be undertaken by the student submitting them, and credit therefore shall be granted only to the extent to which the courses pursued elsewhere articulate with the requirements of the school or department in which the student matriculates."

This resolution was adopted.
GRADE "CONDITION" ABOLISHED. Dean Dyment reported on behalf of the scholarship committee regarding the resolution submitted by Professor Howe at the last meeting:

"The committee approves that part of Mr. Howe's resolution which calls for the abolition of the grade condition. The abolition of this grade would reduce to a very low number the cases of conflict between the Pacific Coast conference eligibility requirements and our scholarship code.

The committee does not go on record as opposing the principle involved in the remainder of Mr. Howe's resolution, the principle to wit, that the two sets of requirements should coincide as nearly as possible; but it does not favor substitution of the rules of the Pacific Coast conference for our present code. The committee feels that the faculty would be substituting for a carefully worked-out and satisfactory code that seems to have united support and understanding of faculty and students, a piece of legislation that may at any time be changed by an agency outside of this faculty."

The Scholarship Committee.

"I hereby petition to be granted a B.S. degree by the University of Oregon, having had two years of regular prescribed work here, one complete school year at the Colorado School of Mines, and one complete school year at the University of California.

My reasons are as follows: I want a teachers certificate, so that I can teach in high school. I left the University of Oregon on the advice of Prof. Sarker, professor of mining, because my major subject was being discontinued here, after having been here in the years 1901-1902 and 1911. I then took my junior year at Colorado School of Mines, but because of the non-residence fee and the many laboratory fees I decided to take my senior year at the University of California, expecting to graduate there. But because they required of me to repeat courses, I had had in Oregon and the Colorado School of Mines and then take a six weeks course in plane surveying (field work) and that I was financially unable to attend school any longer, I did not receive my degree."

Adam C. Krieger.

Moved and carried that this petition be referred to the committee on admissions and advanced standing for report at the next faculty meeting.

It was moved and carried that this motion be referred to a committee of nine to consist of representatives of the departments and schools concerned.

MOTION TO INCREASE AMOUNT OF WORK ACCEPTED FROM E.B.BJ. Dean Dyment submitted a motion to increase the number of credits accepted from the Eugene Bible University from 60 to 90. Upon motion of Dean Hebes, it was voted to take no action in regard to this matter on account of the uncertainty regarding the prescribed courses of study of the University of Oregon and of the articulation of the work of the Bible University with said courses of study.
ENGLISH COMPOSITION TO BE ABOLISHED. The following motion was submitted:

That freshman English composition be abolished, and that one year of work in an advanced written English course be substituted for it as a requirement for any of the bachelor's degrees, said course to carry not less than two or more than three hours' credit per term for the year.

The motion contemplates a simple arrangement in which the following are the main details:

1. The freshman entrance examination in English would be required of all matriculants, but would be devoted largely to grammar and syntax. Those matriculants who were obviously English defectives, and other defectives sent in by major professors, would be required to take a sub-freshman composition course without credit.

2. Except in the case of deficients, it would not be contemplated that any freshmen (majors in the department of English not necessarily included) should take written English in their first year.

3. The department of English would provide some two dozen written English sections, covering a variety of work such that any school or department could list for its course of study a suitable writing course, fitting it into the second, third, or fourth year as desired.

4. Each candidate for any of the bachelor's degrees must have passed one of these year writing courses.

5. The expense of this plan would be not greater than the expense of written English as at present given.
