Grabe's Guidelines for Teaching Reading

1. Reading should be taught in the context of a content-oriented integrated skills curriculum
Paraphrase: Reading should be taught in context and integrated with other skills.
Suggestions:
   a) Pre-reading:
      Supply students with relevant visuals (speaking to reading)
      Listening: cloze test -> reading
      Games (puzzles, crosswords, riddles)
      Projects prepared by students (e.g., interviews, questionnaires, reports)
      Predicting - the topic, etc.

   b) While reading
      Silent reading to confirm guesses/predictions and get the gist
      Information transfer (fill in a table, competition)
      Categorizing lexical items (classification)
      Sentence completion
      Matching (e.g., synonyms/antonyms/definitions)
      Multiple choice

   c) Post-reading
      Write a summary
      Identify the topic sentence
      Role-play (speaking)

2. Individualized instruction - reading lab
Paraphrase: Use varied abilities according to the level of students and their ability to understand.
Suggestions for activities:
   Group work with mixed ability groups
   Picture story/gap filling/ information transfer
   Using aids such as realia, visuals, flash cards, DVDs
   Visual auditory kinesthetic activities
   Gustatory and olfactory activities
   Motivating games and songs
   Jigsaw reading

3. Sustained silent reading should be encouraged to develop automaticity, confidence, and enjoyment
Paraphrase: Have the learner read with an objective/for a purpose.
Suggestions:
   Show the learner a picture and ask him to read and find out the relationship, if any, between the text and the picture.
4. Reading lessons should take account of background knowledge through pre-, during- and post-reading tasks.

Paraphrase: Reading lessons should take into account background knowledge through pre-, during, and after-reading tasks.

Suggestions:

I. Pre-reading
   1. Brainstorming: draw a circle on the board, write a keyword related to the theme, ask students to tell you anything that comes to their minds when they see it.
   2. Visual interpretation: put a visual on the board, ask students to interpret it.
   3. Personal questions: ask students personal questions related to the theme; have students answer a questionnaire related to the theme.
   4. Experiential learning: ask students to look through their mind's eye at an experience they had with an issue or in relation to an issue.

II. During:
   1. Predicting: have students read part of the text and ask them to predict what comes next.
   2. Elaborating: have students consider one detail in the text and expand on it.
   3. Discourse signals: have students stop reading at a linker such as "however" and ask them what they expect the next information will be.

III. After reading:
   1. Evaluating information in the text: ask the students to tell you whether they like or dislike/ agree or disagree with what they've learned in the text.
   2. Application of ideas: ask students to consider what they think of possible applications of ideas in the text.
   3. Parallel writing (twisting): have students write a similar story using the names of their peers as characters.

4. Reading lessons should take account of background knowledge through pre-, during- and post-reading tasks.

Paraphrase: You should start by what students already know when you create an assessment to help pupils understand the reading text. Don't assess what they don't know in their background knowledge.

Suggestions: Include a glossary and use comparisons

7. Extensive reading

Suggestions:

In class, read and
- Identify the type of text (providing alternatives)
- Identify the text genre
- Identify the topic
- Match titles with paragraphs (pair work)
- Reorder scrambled paragraphs (group work)
- Match pictures with paragraphs
- Table completion, ex:

<table>
<thead>
<tr>
<th>Who</th>
<th>Where</th>
<th>When</th>
<th>What</th>
</tr>
</thead>
</table>

- Identify the connection between subtopic and topic
- Guess the topic from title/ subtitles/ headlines/ pictures

Introduction in class:
- Information about
  - a) Characters
  - b) Setting
  - c) Time
- Reading aloud with a focus on intonation to arouse the pupils' curiosity by stopping the reading at the climax, to be completed as home reading.

Home reading:
- Get texts from the class library, short stories/texts from the teacher/Internet
- Jigsaw reading - divide pupils into groups to read through a given part of the text

Back in class after home reading:
- a) Regroup them in class to fill in each others' gap or to rebuild the text (in class)
- b) Check comprehension in class through activities mentioned above
- c) Role reversal: the pupils tell the teacher about the progress of events in the story
