• If you had trouble or got help with any of the assigned problems, solve another, similar problem (or two).

Bonus points. An extra 10% of the homework score will be awarded for correctly following the tutorial on using Sage for linear algebra computation, at https://blogs.uoregon.edu/math342sp18lipshitz/. For this week:

(1) Follow the steps in the post “Matrix operations in Sage”.
(2) Use Sage to check your answers to 4.7.8 and 4.9.6.

Print out the worksheet you create, and hand it in for full credit.
